

VBSR CONFERENCE EXHIBITOR

The Vermont Student Assistance Corporation is unique in its scope and role. Created by the Vermont Legislature in 1965 as a public nonprofit agency, we advocate for students and their families to ensure that they have the information, the counseling and the financial aid to achieve their education goals.

Rhonda Chesney

Program Manager, Career and Education Wellness

Career and Education Wellness

VSAC's Career & Education Wellness program provides an invaluable benefit to your staff by helping them directly with their education goals and by giving them peace of mind and confidence in planning and navigating their families' education. This is a rare opportunity for your organization to provide your employees with a direct benefit that reduces their stress and provides value to them, and you, by improving their own skills and knowledge while investing in their families, your next generation of workers.

Vermont Higher Education Investment Plan (VHEIP)

Save now for your child's future! Vermont's 529 savings plan can help you fund a child's education with even small amounts of savings. Every dollar saved today will help you reduce what you may need to borrow later on. And as you contribute to a Vermont 529 plan account, you can benefit with a Vermont state income tax credit on annual contributions deposited for college or training after high school.
